

Topic **Create Cafeteria Cool!**

Audience

Before- and After-School Providers

Program Description

So your Before- and/or After-School Program is limited to the school cafeteria. That's no reason to accept an uninviting environment for the children you serve! Learn simple, and effective ways to turn your space into the kind of kid-friendly environment that acts as an extra teacher in your program!

Program Content

- Consider factors that focus on children's needs for the following – and how you can provide them!
 - Hard and soft surfaces
 - Open and sheltered spaces
 - Simple and complex options
 - High and low mobility opportunities
 - Safe and still challenging activities
 - Order and creative messiness
- Compare photos from real programs – the good, the bad, and the hopeful!
- See how you can create a print-rich environment that sets the stage for learning – even with limited storage and the need to set it up every day!

Required Time

1.5-2 Hours – Workshop
